Personal Statement

As someone with a passion in Full Stack and Back End Development, I am ideally seeking a position in which I will be able to pursue my interest. Furthermore, I also look forward to being involved in various functions, as would be expected of an intern in a startup. In turn, here are some of the qualities I can contribute to the role:

Having graduated from Singapore Polytechnic with a Diploma with Merit in Computer Engineering, specialising in Networking and Applications, I believe that I have the relevant skills and knowledge to contribute to a technical role. As a penultimate year student in NUS majoring in Information Systems, I also possess extensive experience in programming and design.

I have a strong aptitude for problem solving and curating innovative solutions. During my stint at Mercer, I developed tools for the CRM system and web application that were pushed to production, with little guidance from my team. My tasks involved dealing with complex SQL queries and maintaining large databases that were critical to the business. I was also tasked to tighten the web security of the application after discovering vulnerabilities that might affect the integrity of the data. These required fluent skills in ASP.NET, VB.NET, VBA, Javascript, and SQL.

My attention to detail, strong interpersonal skills and technical abilities have also allowed me to achieve Best Project Award for two of my Full Stack Java projects, where I was the back-end developer in a team of four to seven students, utilizing J2EE with hibernate and Restful Web Services.

My extra-curricular projects have also developed my technical competencies. As the IT Committee Chairperson in Kent Ridge Hall (In-Campus Hostel), I successfully led my team through two website migrations and reconstructions. Furthermore, during summer, as a side project I developed a telegram bot to cater to the hall residents, which received extremely positive feedback from the residents who use it daily. The bot was designed and implemented in Java, and is deployed and running in a Linux environment on my own AWS cloud server.

Hence, I seek to leverage on my humble experiences to make meaningful contributions to your company. For example, I believe my problem-solving skills can be put to good use in coming up with innovative and practical solutions for the team. I also believe that I will be able to deliver work of excellent quality with my eye for detail. Furthermore, my strong interpersonal skills will allow me to be a valuable team player, even within a diverse team of individuals. Last but not least, my past work and extra-curricular experience have broadened and strengthened my technical knowledge and expertise, which I believe would allow me to contribute to the success of projects.

Thank you very much for your attention and I look forward to discussing the internship opportunity with you.

Education

Aug 2016 - Present	**National University of Singapore** Bachelor of Computing (Honours) in Information Systems *(Course details in Appendix A)*	Singapore
Apr 2011 – Mar 2014	**Singapore Polytechnic** Diploma with Merit in Computer Engineering • Specialized in Networking and Applications (GPA: 3.851 out of 4.0)	Singapore

Work Experience

Apr 2018 – Nov 2018	**Mercer** *Compensation Consulting IT Intern* • Acted as a junior project team member to produce data modeling and market analysis/benchmarking of client data under direct supervision • Tightened web application's security (.NET), dealt with complex SQL queries and large databases • Developed tools for the internal CRM in .NET, WPF applications for internal use and micro-tools in VBA	Singapore
Dec 2017 – Jan 2018	**Mercer** *IT Business Analyst Intern* • Assisted and supported the delivery of survey applications (ASP.NET, VB.NET, Javascript, JQuery, MSSQL) • Carried out research and development of tools for the internal portal (CRM) and recommended solutions to enhance the performance of certain tools in the CRM	Singapore
June 2014 – June 2016	**Singapore Police Force** *Ground Response Force (Neighborhood Police Centre Officer)* • Shift duties to conduct patrols to prevent, deter and detect crime • Responded and attended all incidents promptly when dispatched	Singapore
Sept 2012 – Oct 2012	**Singapore Polytechnic** *UAV Research Intern* • Worked on a UAV (Unmanned Aerial Vehicle) throughout the internship • Implemented ROS (Robot Operating System) on Beagleboard • Further pursued the research for my Final Year Project where I developed a semi-autonomous UAV (Python, OpenCV)	Singapore

Achievements/Extracurricular Activities

Aug 2016 - Present	**National University of Singapore Achievements** • Best Project Award – NUS School of Computing Project Term Showcase (13th STePS) • Best Project Award – NUS School of Computing Project Term Showcase (12th STePS) • Certificate of Merit in ICT Solutioning Knowledge Area • Mr Kent Ridge Hall 2017 – Pageant Winner – Kent Ridge Hall	Singapore
Aug 2016 - Present	**National University of Singapore Contributions** • Chairperson for IT Committee (Kent Ridge Hall) • Director of Marketing for NUSSU Welfare (39th MC) • Vice-Director of Marketing, NUS Computing Sports Camp 2016	Singapore

Apr 2011 - Mar 2014	**Singapore Polytechnic Achievements**	Singapore

- MENDAKI Anugerah Khas – for excellent academic achievement
- SINDA Excellence Awards 2014 – for outstanding performance
- Director's Honour Roll 2013
- Director's Honour Roll 2012

Skill Sets & Proficiency

Programming	Java	Proficient
	ASP.NET	Proficient
	VB.NET	Proficient
	C	Intermediate
	C++	Proficient
	C#	Proficient
	Python	Intermediate
Web	HTML5, CSS	Proficient
	PHP	Basic
Database	SQL Management Studio	Proficient
	SQL	Proficient
Web Services	Restful Web Services (JAX-RS)	Proficient
	SOAP	Proficient
Scripting	JavaScript	Proficient
	TypeScript	Proficient
	Angular	Proficient
Markup	XML	Proficient
Office Productivity	Microsoft Word, PowerPoint	Proficient
	Microsoft Excel with VBA	Proficient
Operating Systems	Linux	Proficient
	Windows XP, 7, 8, 10	Proficient
Multimedia	Adobe Photoshop CS2	Basic
Non-technical Skills	Project Management	Basic
	Writing/Publications	Basic

Language Proficiency

Spoken	English – fluent; Bahasa – fluent
Written	English – fluent; Bahasa – average

Additional Information

Side Project: Spearheaded a side project during summer where I single-handedly developed a telegram bot for over 500 residents. Link: https://t.me/KRMealBot Features: https://docdro.id/q3GKGo7
Interests: I enjoy DJing during my free time. I am a co-founder of KRemix - a DJing Interest Group in Kent Ridge Hall, where I teach residents how to DJ every week. I have performed gigs for my school, as well as for external events, and continue to do so in my leisure time. I also enjoy playing tennis and have competed on a faculty and inter-hall level.

APPENDIX A

Degree: Bachelor of Computing (Honours) in Information Systems

Year	Level	Course Description	Grades
Aug – May 2017	Year 1	Programming Methodology	B+
		Strategic IT Applications	B+
		Requirements Analysis and Design	B
Aug – May 2018	Year 2	Enterprise Systems Server-Side Design and Development	A-
		Enterprise Systems Interface Design and Development	A-
		Discrete Structures	B+
		Business and Technical Communication	B+
		Introduction to Information Security	B
Aug – May 2019	Year 3	Information Systems Capstone Project #	A-
		Enterprise Resource Planning Systems	In-progress
		IT Project Management	In-progress
		Information Systems Consulting	In-progress
		Probability and Statistics	In-progress
		Information Systems Leadership and Communication	In-progress

The **Information Systems Capstone Project** required us to work in a team of 7 through a complete Systems Development Life Cycle to develop an enterprise-grade business information system for a client. Emphasis was placed on requirement analysis, system design, user interface design, database design and implementation efficiency. Our team developed a system called BellyFast, which includes two web applications and one mobile application. It is an all-in-one online ordering system that provides convenience to customers and food businesses alike. BellyFast online ordering system includes a front-end menu, back-end inventory management, menu customization, and analytics reports. Our project participated in the NUS School of Computing Project Term Showcase (13th STePS) and managed to receive the Best Project Award.

NUS Grading Scale:

A+ & A (5.0); A- (4.5); B+ (4.0); B (3.5); B- (3.0); C+ (2.5); C (2.0); D+ (1.5); D (1.0); F (0)

S = Satisfactory; U = Unsatisfactory

CS = Completed Satisfactorily; CU = Completed Unsatisfactorily

EXE = Exempted; IC = Incomplete; IP = In Progress; W = Withdrawn

To Whom it May Concern

19 January 2018

Subject: Testimonial for Mr Farhan Angullia

This letter serves as a testimonial for Mr Farhan Angullia with respect to his internship completed with Mercer (Singapore) Pte. Ltd., from the period of 1 December 2017 to 19 January 2018. During his internship with Mercer, Farhan was attached to the Mercer-HRBS Team as an IT Business Analyst (Intern) under my supervision.

I had the pleasure to work with Farhan during his internship as his supervisor. During his time with Mercer, he was tasked to develop new and improved tools for our internal portal (CRM). These tasks involved skills that require proficiency in JavaScript, VB.NET, ASP.NET, JQuery and Microsoft SQL. He was also responsible for the research and recommendation of solutions to enhance the performance of certain tools in the CRM.

Farhan made valuable contributions during his time here and has demonstrated outstanding analytical and technical skills in his work. He is able to grasp concepts very quickly and smoothly adapted to our software cycle process. This has enabled him to deliver high quality and efficient work.

Farhan is also an excellent team player, always ready to provide assistance and support to his colleagues in the team. As such, he is a valuable team member as he assists his colleagues with work of excellent calibre in a timely manner.

He is an invaluable asset to any team and I highly recommend him for his future endeavour. Please do not hesitate to contact me (henry.lim@mercer.com) should you have any further questions.

Yours sincerely,

Mercer (Singapore) Pte. Ltd.

Lim, Henry
Mercer-HRBS, Principal
